

Abstract submission guidelines

- All abstracts must be in English. Spelling within any one abstract should be US English or UK English, but not a mixture.
 - The title must be entered exactly as it should appear and should be in sentence case.
 - All authors and contact information must be listed in the correct order. The order in which authors will be listed in the author block of all publications is the order that they are entered.
 - Each author MUST indicate at least one affiliation, in the format Department, Institution, Town, Country OR Institution. There is no limit to the number of authors you can include.
 - Abstract Structure:
The following is included in the abstract body and must not exceed 300 words total: Background, Methods, Results*, Conclusions*
*For Clinical Trials in Progress, results and conclusions are not required.
One table will be permitted. Words included in the table will count towards the overall word limit.
 - Abbreviations should be used as sparingly as possible and should be defined when first used.
 - Please indicate up to 5 keywords for the abstract.
 - References should be numbered in the text and the reference list should be in the style 'Vancouver'.
-
- Abstracts accepted for oral presentation do not need to submit a corresponding poster.
 - Additional abstracts of interest may be selected for Poster Presentations which will be accompanied by a brief video or audio recording.

If you have any further questions regarding abstract submission please contact bhdsymposia@myrovlytistrust.org
